## PROGRAMME SPECIFICATION

### HIGHER EDUCATION PERFORMANCE REVIEW: PROGRAMME REVIEW

The College of Dentistry which is one of the important colleges in AL-Kitab University, was established in the academic year 2016-2017. The college is concerned with the use of modern theoretical, practical and clinical methods in dentistry. Duration of the study section is five years, and the graduates will be awarded a bachelor's degree in dentistry.

The College of Dentistry is interested to build the specialized knowledge of the student in the fields of modern dentistry, and is interested in the quality of education and its outputs. It has faculty members with high degrees and scientific titles qualified in the academic and practical fields.

One of the most important future aspirations in the College of Dentistry is the transformation from the level of a department to the Faculty of Dentistry, which includes sections and branches in the fields of dentistry and the development of a postgraduate program in various disciplines in dentistry.

This Programme Specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to preparing generations of dentists, specialists, consultants and experts in various fields of dentistry.
